October 2019

Greeting Chisholm Chargers! As this newsletter reaches you, I find it hard to believe that we are fast approaching the end of the first nine weeks. Cooler weather, shorter days, football season, and pumpkins signify the fall season is upon us. Thank you to everyone that attended our Family Fun Night! We had a great turnout even with the threat of rain. It was a fun night of cake walks, face painting, hair painting and enjoying the evening with our school family.

Teachers have been completing the first reading and math screener of the year. Information from that screener and any subsequent plans will be discussed in detail during Parent Teacher Conferences, which will begin next week. Fourth and Fifth Grade teachers will have a print out of last years OSTP results to hand out at conferences. Please take note of the list of upcoming events below, which will close out the month of October.

Thank you again for all your help and support getting this school year off and running.
